

KIRAN K

Java Full Stack Developer | Spring Boot, REST APIs & Microservices

Bangalore | 9108025215 | kiran.k.software.eng@gmail.com

linkedin.com/in/kiran-k-1252581b8 | github.com/TechyKiran

PROFESSIONAL SUMMARY

Java Full Stack Developer experienced in Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, MySQL, Servlets, JSP, HTML5, CSS3, and JavaScript. Skilled in backend development, API integration, database design, debugging, Agile delivery, CRUD applications, and enterprise application features.

KEY EXPERTISE

Java & Spring Boot

REST API Development

Microservices

Spring Security

Full-Stack Web Apps

Database

GitHUB-COPILOT

SDLC

DSA

TECHNICAL SKILLS

Programming: Java, JDBC, Servlets, JSP, JavaScript, HTML5, CSS3, Bootstrap

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, Hibernate

Tools & DevOps: Git, GitHub, Docker, Maven, Postman, MS Office Suite

AI tools and usage: GitHub-COPILOT, CHATGPT, Google-Gemini

Architecture & APIs: Microservices architecture, RESTful API design, MVC pattern

Databases: MySQL, SQL Server, JDBC, database design, query optimization

Core CS: Data structures and algorithms, OOP, Collections Framework

PROFESSIONAL EXPERIENCE

Nimblix OPC Technologies Pvt. Ltd. | *Software Developer - Java* | Mar 2026 - Jul 2026

- Analyzed, Developed and maintained Java applications and backend components using GitHub-COPILOT, fixed all the vulnerabilities using AI tool, supported feature implementation and testing, and application maintenance.

Zaalima Development Pvt. Ltd. | *Java Full Stack Developer Intern* | Nov 2025 - Feb 2026

- Developed full-stack modules using Java, Spring Boot, Servlets, JSP, Hibernate, and MySQL; integrated REST APIs with frontend JavaScript components.
- Participated in Agile sprints, code reviews, bug fixing, and feature deployments while following coding standards.

Bharat Electronics Limited | *Graduate Apprentice - Software Engineering* | Aug 2024 - Aug 2025

- Contributed to SAMVAD, an internal training-management application covering programs, schedules, faculty, participation, training hours, costs, and assessments.
- Supported analysis, development, debugging, testing, and maintenance of internal Java-based software tools with senior engineers.

KEY PROJECTS

SAMVAD - Employee Training Management Application

- Contributed to development, debugging, testing, and maintenance of employee training-management functions at BEL.

E-Commerce Web Application - Java, Spring Boot, Hibernate, MySQL

- Built product listing, authentication, cart, and order-processing modules with responsive web components.

Hospital Management System - Java, Spring MVC, MySQL

Education: B.E., Computer Science & Engineering | 2019 - 2023 Certifications: TCS NQT; Java Full Stack Web Development
